DETAILED ACTION

1. This communication is responsive to your amendment filed 2/10/06. Claims 1-8 and 17-24 are currently pending in this application. Claims 9-16 have been cancelled.
2. The indicated allowability of claims 1-8 and 17-24 is withdrawn in view of the newly discovered reference(s) to Kojima et al. P.N. 6,463,233. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-8 and 17-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Kojima et al. P.N. 6,463,233 (Kojima).

Kojima discloses a process cartridge for an electrophotographic image forming apparatus. Applicant's attention is directed to Fig. 3 and 8 and their corresponding description. The process cartridge "B" includes: first and second sides and a bottom portion and being configured to be detachably mounted to an image forming apparatus, said cartridge comprising a photoconductive element 7 (see Fig. 2), and a housing configured to house said photoconductive element, said housing comprising a guide portion 12a configured to guide the process cartridge in and out of the image forming apparatus, the first guide being disposed on the first side of the process cartridge on a

first location and the second guide 29b being disposed on the second side of the process cartridge on a second location lower than the first location with respect to a vertical direction.

Kojima meets all the limitations of the claims in their present form.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
